Noooooooooo, got me because of my love for SWOS. It isn't near that. Lags, ppl quitting, controls....

Good things?. Scored one goal :D. Pressing ESC anywhere once makes u quit match, twice it closes game really fast.... 10/10 would go to S O L I T A R Y again. AHHHH factorio per i poveri si. huh u huhu mmyu. This is a review of Elite units of the east for Empire Total War

This is somewhat of an iffy one, if you really like the ottoman empire then it is really a must, with alot of powerful milita units such as Palastani auxilires and alot of light infantry irregluars, If you are not into this kind of factions (maratha units are in it too) then pass on this one, i still recommend it

Units: Armenian archers (Ottoman), Kardawi (maratha), Cario jannisaries (Ottoman), Cicurrian armored cavarly (Ottoman), Hayduet Irregulars (Ottoman), Libyan Golag (Ottoman), Mounted Nizam Cedet (Ottoman), Palastanie auxilires (Ottoman), Poligar (marathas), Raja Zimbardi (Marathas), Wallichan boyars (Ottoman). Great game! Runs max settings 80fps on my 27inch mid 2013 iMac, (3.6GHz quad core CPU, 8GB RAM, Geforce GT 755M). there are plenty of active servers for multiplayer and zombies. 9.5/10. You get what you paid for, 4.7K achievements at minimum price. If you\u2019re an achievement hunter looking to increase the number of achievements on your profile showcase, then I highly recommend buying this. Else don\u2019t waste your money. This is not a game, it\u2019s just a way of distributing achievements.. PLEASE Developers make more stages. Tha's the main thing preventing me from having fun and purchasing a Character Model pack. You need more Creative stages. Not just boring rectangle shaped stages. Stages that are different shapes, have different pros and cons, stages that require different strategies. It's really boring playing the same few stages over and over. That was the main problem with Bomberman, it was boring. And that's why bomberman died off. There was no strategy other than avoiding "plus shaped" bomb splash damage on a large rectangular shaped level.

Try It out! It's fun!. That's a good game! But I don't know how to earn Trading Cards!. The Forge is one of the many new tombs added to the game and to be honest \$5 for an hour of gameplay isn't quite worth it and is why this is rated 'Mostly Negative' Personally this tomb is really cool but is also annoying how it all revolves around this revolving (ha) tower and how you have to keep getting off to allow to progress as it will lower if you take to long is just annoying. Overall cool expansion but not worth \$5.

- +New tomb that looks badass and plays differently than any other tomb in the game
- +Co-Op
- +Online matchmaking
- +New outfit
- +New gun
- +New perk
- +New side quest

-I didn't like how the tomb required you to get off almost on each level to allow it to progress by opening the mouth of the snakes and by the time you finished opening the mouth the tower would be a level or two lowered and was just an annoying back and forth

-Really short by doing the side quest and the challenge tombs score attack and time attack you'd be done in less than an hour

-Side quest is nice that it adds more content and character to Abby but the aunt was weird as she would look at the floor while talking to you. Specifically the part where she even goes 'Let me look at you I haven't seen you in so long!' As she's looking in a completely different direction

-The new outfit is ugly

Overall I liked the concept but the biggest flaw is that it just to short of gameplay for \$5 obviously if you bought the season pass not a big deal but still should be maybe 3 tombs for the price of \$5. Also thank god the achievements didn't require you to get gold on score attack/time attack. I also did not try the multiplayer but after experiencing the co-op DLC in Rise of Tomb Raider I wouldn't put much faith into it as it was super broken.

. Nice work. But a little need to improve road and should add cities instead of different bus-stops.. Absolute garbage. Not worth \$0.01 of value. Dates technology used in the 1990's. Can't change resolution. No controller support. Has many issues working on multiple monitors. Didn't get a chance to play it for a while, and got no refund. Don't waste even ten cents on this game. My 4 year old was even saying this game sucks.. This game is a CRAFTING game, and you can really enjoy and feel the story if you play the normal mode. I recommend to use the the VN mode only when you want to unlock the other ending. But for firstplay, I would really prefer to play in the crafting mode... Either way, i really love the story, jst like your other works. Good job winter wolves!. NEUTRAL rating

Straight swings going far left or right! Not sure if it's something to do with the 'rhythm' that's mentioned, BUT my less than perfect swings are more or less straight- all according to the on-screen graphic.

Played the original for many hours and this seems even better, but I can't live with the inconsistencies. If my club will chip on to the green 10 yards away, I don't want the ball to go 20 yards!

On a very positive note, the putting has been tightened up and feels significantly better than the original with it's natural form.

For someone with more time and patience it's worth it on sale, but maybe not for those who have played Golf games where there's less random intervention.. A must have for this price. Don't miss this bargain for what is a really well finished wave shooter game.. didn't bother to finish/10

An FPS with no a single redeeming quality.

Weapons? Meh.

Sounds? Meh.

Controls? Clunky.

Gunplay? As basic as it gets.

Levels? Bottom of the barrel.
